RE: Capstone Portfolio Project

To whom it concerns,

I am an experienced programmer using this opportunity to present myself and the work I have completed in the past. I have a strong track record and am looking forward to displaying my skills and abilities.

Skilled program developer with 3 years of experience in the industry. Highly adept at handling various responsibilities by prioritizing my tasks, establishing clear deadlines, and finding creative solutions to eliminate obstacles. My experience has equipped me with the necessary tools to succeed in this position:

- Project Organization
- Programming Proficiency
- Project Engineering

Due to the ongoing pandemic, I am currently working remotely from my home in Florida. As a hardworking program developer with a strong record of dedicated service, I know I can be a valuable asset to any team that I work with.

Thank you for your time.

Sincerely,
Zion Henry
